
Bids invited for high-speed rail ticketing work

KAMAL MISHRA / Mumbai

The National High Speed Rail Corporation Ltd (NHSRCL) has invited bid for the selection of a consultant to recommend and implement the ticketing system for the Mumbai-Ahmedabad High-Speed Rail (MAHSR) corridor. The pre-bid meeting will be held on December 7, and will see discussions on the fine print of the bidding documents to be designed for both online and of-line tendering.

The chosen consultant will prepare a report on the comprehensive employer's requirements for the ticketing system "Accurate cost estimation is deemed fundamental and the selected consultant will be tasked with preparing a detailed cost estimation report. It will provide a clear understanding of the financial aspects involved in implementing the advanced ticketing system," said an official.

The consultant's involvement extends to active participation in the tender process; aiding in its smooth initiation, submission, and opening. In the next step, the consultant will submit a tender evaluation report which will offer insights into the strengths and capabilities of each bidder. The final step involves the preparation of a contract agreement outlining the terms and conditions governing the implementation of the MAHSR ticketing system.

The bidding submission period will start from December 20 and continue till January 8, 2024.

Bullet train ticketing: NHSRCL invites open tender for consultant

National High Speed Rail Corporation Limited (NHSRCL) has invited open tenders (e-bids) from Indian firms for selection of “Consultant for Ticketing System for the bul-

let train project”. The consultant will study and suggest the best available system, prepare tender documents, cost estimation report and assist in finalisation of main tender. **AM**
